

<Undercoat material for petrolatum anticorrosion tape>

No.59PW

Outline

No.59PW is an undercoat material that includes inorganic filler materials and rust converters in it. The product shape is paste type and can be used as a supplementary material for No.59 series.

Applications and Features

- After putting this material on the steel surface, removing a gap out between base steel and tape, it shall be adhered to base steel firmly.
- This material has a function that converts red rust to black rust and can stabilize the rust.

Standard size

Table-1 Standard size

Product	Weight	Q'ty per carton
No.59PW	3kg (canned)	2

Characteristic

- General properties

Table-2 General properties

Item	Unit	No.59PW	Test Method
Color	-	Brown	Visual Check
Consistency	-	170	JIS Z1903
Specific gravity	-	1.05	JIS Z5407
Evaporation amount	%	1.71	JIS Z1903
Water/Paste replaceability	-	No rust	JIS Z1903

Cautions Concerning Use

- Application of undercoat material shall be done quickly after adjustment of base steel
- Please wear protectors, protective glove during work
- If you get skin rash after contacting this product to your skin, please wash it quickly with water and Soap
- If this product enters into your eyes, washing your eyes with a lot of amount of water, please contact a doctor.
