

AS-1001 Fire Retardant Sealant

ALSEAL Fire Retardant Sealant is a one-component, highly qualified, acrylic based firestop sealant that provides movement capability in fire rated joint applications. It has up to 4 hours fire rating under BS EN 1366-4:2006. The product is almost odor free and is non-corrosive towards metals. After application, the product forms a tough elastic rubber by evaporation of water from the sealant.

Used on indoor joints with fire retardant requirements (joints between walls and ceiling, perimeter sealing of fire rated doors and windows).

It has good adhesion on most construction materials (concrete, bricks, painted wood, aluminium, etc.).

Features:

- ✓ Up to 4-hour fire rating (BS EN 1366-4: 2006)
- ✓ Smoke, fume, and water resistant
- ✓ Easy clean up

Available colors: White, grey, red
