Bathroom Floor Waterproofing

AS-742 Flexible Cementitious Waterproofing

ALSEAL Flexible Cementitious Waterproofing is a two part polymer modified, flexible waterproofing coating. Upon mixing, it becomes brushable, smooth slurry with excellent bonding to most substrates. It is applied to concrete and mortar to prevent water infiltration.

Applications:

It is formulated as an effective waterproofing coating on a variety of substrates which includes water tanks, basements, car parks, terraces, balconies, bridges, retaining wall, swimming pools, RC gutters, bathroom floor, and walls, planter boxes, wet areas like kitchens, waste water treatment plants, shower room etc.

Available colour: Cement grey

Features:

- ✓ Improved the bonding strength on most substrates
- ✓ Accommodate moderate movements of hairline cracks up to 0.3 mm
- ✓ Good resistance to weathering
- ✓ Non-toxic and safe for surfaces in contact with drinking water
- ✓ Prevents the build-up of vapour pressure
- ✓ Easy to mix and apply
